Federal Rule of Civil Procedure 45 (c), (d), (e), and (g) (Effective 12/1/13)

(c) Place of Compliance.

(1) *For a Trial, Hearing, or Deposition.* A subpoena may command a person to attend a trial, hearing, or deposition only as follows:
  (A) within 100 miles of where the person resides, is employed, or regularly transacts business in person; or
  (B) within the state where the person resides, is employed, or regularly transacts business in person, if the person
    (i) is a party or a party's officer; or
    (ii) is commanded to attend a trial and would not incur substantial expense.

(2) *For Other Discovery.* A subpoena may command:
  (A) production of documents, electronically stored information, or tangible things at a place within 100 miles of where the person resides, is employed, or regularly transacts business in person; and
  (B) inspection of premises at the premises to be inspected.

(d) Protecting a Person Subject to a Subpoena; Enforcement.

(1) *Avoiding Undue Burden or Expense; Sanctions.* A party or attorney responsible for issuing and serving a subpoena must take reasonable steps to avoid imposing undue burden or expense on a person subject to the subpoena. The court for the district where compliance is required must enforce this duty and impose an appropriate sanction—which may include lost earnings and reasonable attorney's fees—on a party or attorney who fails to comply.

(2) *Command to Produce Materials or Permit Inspection.*
  (A) *Appearance Not Required.* A person commanded to produce documents, electronically stored information, or tangible things, or to permit the inspection of premises, need not appear in person at the place of production or inspection unless also commanded to appear for a deposition, hearing, or trial.
  (B) *Objections.* A person commanded to produce documents or tangible things or to permit inspection may serve on the party or attorney designated in the subpoena a written objection to inspecting, copying, testing, or sampling any or all of the materials or to inspecting the premises—or to producing electronically stored information in the form or forms requested. The objection must be served before the earlier of the time specified for compliance or 14 days after the subpoena is served. If an objection is made, the following rules apply:
    (i) At any time, on notice to the commanded person, the serving party may move the court for the district where compliance is required for an order compelling production or inspection.
    (ii) These acts may be required only as directed in the order, and the order must protect a person who is neither a party nor a party's officer from significant expense resulting from compliance.

(3) *Quashing or Modifying a Subpoena.*
  (A) *When Required.* On timely motion, the court for the district where compliance is required must quash or modify a subpoena that:
    (i) fails to allow a reasonable time to comply;
    (ii) requires a person to comply beyond the geographical limits specified in Rule 45(c);
    (iii) requires disclosure of privileged or other protected matter, if no exception or waiver applies; or
    (iv) subjects a person to undue burden.
  (B) *When Permitted.* To protect a person subject to or affected by a subpoena, the court for the district where compliance is required may, on motion, quash or modify the subpoena if it requires:
    (i) disclosing a trade secret or other confidential research, development, or commercial information; or

    (ii) disclosing an unretained expert's opinion or information that does not describe specific occurrences in dispute and results from the expert's study that was not requested by a party.
  (C) *Specifying Conditions as an Alternative.* In the circumstances described in Rule 45(d)(3)(B), the court may, instead of quashing or modifying a subpoena, order appearance or production under specified conditions if the serving party:
    (i) shows a substantial need for the testimony or material that cannot be otherwise met without undue hardship; and
    (ii) ensures that the subpoenaed person will be reasonably compensated.

(e) Duties in Responding to a Subpoena.

(1) *Producing Documents or Electronically Stored Information.* These procedures apply to producing documents or electronically stored information:
  (A) *Documents.* A person responding to a subpoena to produce documents must produce them as they are kept in the ordinary course of business or must organize and label them to correspond to the categories in the demand.
  (B) *Form for Producing Electronically Stored Information Not Specified.* If a subpoena does not specify a form for producing electronically stored information, the person responding must produce it in a form or forms in which it is ordinarily maintained or in a reasonably usable form or forms.
  (C) *Electronically Stored Information Produced in Only One Form.* The person responding need not produce the same electronically stored information in more than one form.
  (D) *Inaccessible Electronically Stored Information.* The person responding need not provide discovery of electronically stored information from sources that the person identifies as not reasonably accessible because of undue burden or cost. On motion to compel discovery or for a protective order, the person responding must show that the information is not reasonably accessible because of undue burden or cost. If that showing is made, the court may nonetheless order discovery from such sources if the requesting party shows good cause, considering the limitations of Rule 26(b)(2)(C). The court may specify conditions for the discovery.

(2) *Claiming Privilege or Protection.*
  (A) *Information Withheld.* A person withholding subpoenaed information under a claim that it is privileged or subject to protection as trial-preparation material must:
    (i) expressly make the claim; and
    (ii) describe the nature of the withheld documents, communications, or tangible things in a manner that, without revealing information itself privileged or protected, will enable the parties to assess the claim.
  (B) *Information Produced.* If information produced in response to a subpoena is subject to a claim of privilege or of protection as trial-preparation material, the person making the claim may notify any party that received the information of the claim and the basis for it. After being notified, a party must promptly return, sequester, or destroy the specified information and any copies it has; must not use or disclose the information until the claim is resolved; must take reasonable steps to retrieve the information if the party disclosed it before being notified; and may promptly present the information under seal to the court for the district where compliance is required for a determination of the claim. The person who produced the information must preserve the information until the claim is resolved.

(g) Contempt.
The court for the district where compliance is required—and also, after a motion is transferred, the issuing court—may hold in contempt a person who, having been served, fails without adequate excuse to obey the subpoena or an order related to it.

For access to subpoena materials, see Fed. R. Civ. P. 45(a) Committee Note (2013).

SCHEDULE A TO SUBPOENA TO ERIE COUNTY CENTRAL POLICE SERVICES
REGARDING CHARMS DATABASE
Black Love Resists in the Rust v. City of Buffalo
No. 1:18-cv-00719

This subpoena requires production of the electronically stored information described below in the possession, custody, or control of Erie County Central Police Services. Production is to be made, at the election of the producing party, either (a) on removable media, such as a U.S.B. key or a DVD-ROM or (b) by secure file transfer site.

The database from which production is to be made is the CHARMS database in use in Erie County. There are four separate requests for production. Two of these consist of standalone tables from the CHARMS database. In the third, production is to be made using the COMPLAINT Table as the main table, with linked associated tables as described in the attached Schedule A-1. The fourth request is for a codebook, data dictionary, or, if no such singular document exists, documents sufficient to identify the coding described in the fourth request.

First Request

Every entry in the ROADSTOP table for which the STARTTIME field either (a) reflects a date between January 1, 2011 and the present or (b) is blank.

Second Request

Every entry in the TOWING table for which both (a) the COMPLAINT and COMPLAINTID fields are blank and (b) the TOWDATE either (i) reflects a date between January 1, 2011 and the present or (ii) is blank.

Third Request

For each distinct entry in the COMPLAINT table for which either (a) any of the Complaint Date Fields, as defined below, reflects a date from January 1, 2011 to the present, or (b) all of the Complaint Date Fields are blank, create a record from such entry and the entries in the linked tables to which such entry points that consists of the fields identified in the attached Schedule A-1.

-2-

Fourth Request

Please produce the codebook (or code list from the data tables) setting forth the meaning of any coded entries in either (a) the tables produced in response to the First and Second Requests or (b)the fields listed in Schedule A-1 (*e.g.*, numeric codes for Arrest Types). If no singular data dictionary or codebook exists, then this request calls for documents sufficient sufficient to identify and decode the coding in each field in each of such tables and in each field identified in Schedule A-1.

Definitions and Format for Production

1.   For purposes of this subpoena, the term Complaint Date Fields means any of the following fields:

Table	Column Name	Data Type	Data Length	Column ID
COMPLAINT	REPDATE	DATE	7	2
COMPLAINT	TIMERECD	DATE	7	29
COMPLAINT	TIMESENT	DATE	7	30
COMPLAINT	TIMEARRD	DATE	7	31
COMPLAINT	TIMECLEARD	DATE	7	32
COMPLAINT	RECDATE	DATE	7	37

2.   Production shall be made as either a .csv (comma-separated values) file, with a distinct end-of-record character for each record or (by preference) an Excel™ workbook, with one record per row. In the event that the production called for consists of more than one million rows, it is to be broken up into sequentially identified files, or sequentially identified tabs of an Excel™ workbook, of no more than one million rows each.

REGARDING CHARMS DATABASE**
Black Love Resists in the Rust v. City of Buffalo
No. 1:18-cv-00719

Associational relationships to be used in creating the records are as follows:

- The COMPLAINT table is the main table.

- The COMPLAINT and/or COMPLAINTID fields point to the INCIDENT, ARREST, TOWING, and POLICEREPORT tables.

- The INCIDENTID field in the INCIDENT table points to the OFFENSES table.

- The ARRESTNUM field in the ARREST table points to the CHARGES table.

The fields to be included in each record produced, and the tables from which they should be taken,

are set forth below.
